

Melvin Luis De Mesa

AWS Full Stack Developer / DevOps Engineer / Cloud Engineer

37 Margie Moran St. BF Resort Village, Las Piñas City, Philippines

(+63) 915-885-0364

melvinluisdemesa@gmail.com

SKILLS

- Node.js / NestJS / Express
- React.js / Vue.js
- C# / ASP.NET 9.0
- SQL / NoSQL / GraphQL
- DevOps
- AWS / Azure
- CI/CD Pipelines
- Terraform / IaC
- Docker / Kubernetes
- Agile / Scrum
- REST APIs
- Microservices

AWS CLOUD TECHNOLOGIES

- Lambda
- API Gateway
- S3
- Fargate
- Cognito
- CloudFront
- Route53
- RDS
- Aurora
- Step Functions
- DynamoDB
- SQS / SNS

EXPERIENCE

GlobexPeople, LLC - Texas, USA (WFH) - AWS Lead Full Stack Developer / DevOps Engineer

Aug 2023 - July 2025

- Lead developer on a major digital transformation project for a leading U.S. energy company, managing an international agile team of 7 developers across the Philippines, Australia, Slovakia, the U.S., and Spain.
- Spearheading DevOps initiatives on AWS, implementing infrastructure-as-code via Terraform and automating CI/CD using Azure DevOps pipelines.
- Led application modernization efforts by architecting and delivering scalable, cloud-native solutions on AWS, reducing deployment times by 70%, improving system resilience, and accelerating feature delivery.
- Driving third-party system integrations and managing complex environment configurations and interdependencies.
- Contributing to frontend and backend development using React and Node.js to enhance enterprise-level applications and support rapid delivery of user stories.

Planet Price - Brisbane, Australia (WFH) - Full Stack Developer (From Full-time to Freelance setup)

Oct 2023 - PRESENT

- Developing an AI-powered pricing intelligence platform in a fast-paced startup environment, taking end-to-end ownership using React, Node.js/NestJS, C#/ASP.NET 9.0, AWS, and Azure.
- Building complex, data-intensive applications featuring interactive charts and dashboards using amCharts and big data sources.

- Involved in the full software development lifecycle: from planning and architecture to deployment, monitoring, and technical documentation.
- Collaborating closely with cross-functional stakeholders to refine business requirements and deliver rapid iterations.

Accenture, Inc - Philippines - *Application Development Analyst*

Dec 2020 - Aug 2023

- Developed and deployed cloud-native applications using AWS serverless technologies.
- Implemented secure and efficient CI/CD pipelines.
- Plan, develop and deliver complex end-to-end requirements.
- Developed using Microsoft Azure technologies mainly for Data and AI design and solutions.

EDUCATION

PATTS College of Aeronautics, Philippines - *BS Aeronautical Engineering* - **2014 - 2019**
